

Make: Hilti
Model: GX90-WF
Description: 1st Fix Framing Nailer

Features

- Cordless alternative for most common wood framing applications – eliminating trailing cables and hoses
- Designed to significantly increase productivity – high-capacity magazine and Li-ion battery
- Unique safety nose significantly reduces risk of free-firing, helping to minimise health and safety concerns
- High-grip nose, easy depth adjustment (tool-free) and protective cap help to optimise working precision
- Works at low temperatures (down to -10°C)

Applications

- Wood framing for stud walls and roofs
- Roof battens and counter battens
- Timber substructures
- External cladding
- Wall and roof panelling

Specification - Technical Data

Dimension (L x W) 384 x 134 mm
Tool body weight 3.7 kg
Fastener intake 84 nails
Fastener length range 50 - 90 mm
Power source type GC 31 Gas can, GC 32 Gas can
Hilti Connect No
Power (max.) 85 J
