FEATURES & BENEFITS

Gap Wedge

- Used to force a gap between laid blocks for extraction or maintenance.
- Fitted with two sizes of hardened wedges.

Block Lifter

- Lifts a block out from a set with no damage.
- Adjusts to accept block sizes between 90 – 240mm.
- Long handles for ease of operation.

Block Mallet

- Designed to force blocks into place without marking or damaging the blocks.
- Square shaped head to achieve best contact and reduce the risk of potential damage.
- 3kg square rubber head, 700mm long extra thick handle.
