

KADDI™

WESTERN 

KADDI

A moulded, heavy duty polythene container for easy moving of liquid. The design shape of the Kaddi combined with large pneumatic tyres and a pump fitted as standard, making it a simple product to use. There are two versions available:

- ❶ The **blue Kaddi** is for water and is available for indoor plant watering, window cleaning or refilling washer/coolant tanks in a transport depot, etc.
- ❷ The **diesel** version is **red** and meets environmental requirements for fuel storage with its 110% bund. It is ideal for refuelling small diesel engines on welders, pumps construction equipment and many other hire equipment.

KADDI SPECIFICATION

MODEL	CAPACITY		DIMENSIONS (mm)			WEIGHT (kg)	
	LITRES	GALLONS	LENGTH	WIDTH	HEIGHT	UNLOADED	LADEN
SS22K (WATER, BLUE)	100	22	1100	540	640	22	122
