CT370-2

There really is nothing quite so useful as a small, compact Cleantec machine that provides the combination of a powered liquid supply and efficient wet pick-up facility... all incorporated in one unit.

Mainly used in the cleaning of carpets and upholstery these machines can be equally effective on hard floors where there is a need for localized scrubbing and wet pick-up operation.

Twinflo'

The power head is to the full Twinflo' specification ensuring excellent performance but, in addition, has incorporated as standard our Powerflo' pump system and quick release fluid connector. The container system is to our unique "tank within a tank" design ensuring as compact a total package as possible.

A range of accessory kits are available to cover all applications.

** Also available CTT370-2 with transparent container*

Motor	Power	Airflow	Suction	Dry	Wet	Ext	Range	Weight	Size
1200W	230V AC 50/60Hz	40 L/sec	2500mm	15L	9L	6L	26.8m	8.8Kg	355 x 355 x 510mm
