

Make: Dust Control
Model: DC AIRCUBE 1200
Description: Air Cleaner Dust Extractor

The DC AirCube air cleaner is intended for cleaning the air in a work area and is intended for use as a compliment to spot extraction. Air is passed through a combination filter and a HEPA filter. The HEPA filter actually separates particles to 99.995%. The combination filter separates the majority of the particles and thereby prolonging the life of the microfilter.
