

**Make: CLM**  
**Model: ET200**  
**Description: Scaffolding Hoist 20Kg SWL 110v**

**This pivoting 200kg electric hoist with a lifting height of 30m is ideal for the small builder or larger contractor to lift material from the ground or lower material to the ground safely. It has a top limit lever and micro switch to stop the hoist when it is at the top of its lift safely. The hook has a spring-loaded safety catch to keep the load carrier within the hook.**

**There are several accessories that are available to use with the ET200N to enable various types of materials to be lifted.**

- **90 litre (200kg) Bucket**
  - **1m Pendant**
- **Liftable Wheelbarrow that can be used for both wet or dry materials**
  - **Brick basket**
- **Distance from mounting to Lifting point 720mm**

**Maximum capacity - 200kg**

**Av. full load lifting speed - 19m/min**

**Max. working height - 30m**

**Ø wire rope - 5m**

**Rope length - 31m**

**Motor power rate 230V/50Hz 110V/50 Hz 0.75kW**

**Motor speed min./max. -1350rpm**

**Running current - 14amps**

**Machine weight - 39kg**

**SPL in operator's position - <70dB(A)**

**Dimensions w/l/h -330/770/520mm**

**Packing dimensions w/l/h - 350/820/500mm**
