

Make: Uni Bor
Model: S60/32
Description: Magnetic Based Drill 110v

Magnetic rotary drill is suitable for drilling accurate, clean holes in steel work and is attached to the steel by its electro magnet.

Specification

Height: 21"

Weight: 48 lbs

Magnet Dimensions: 7 3/4" x 4" x 2 1/4"

Magnet Adhesion: 3100 lbs

Stroke: 8 1/4"

Motor: 70-275 / 140-540 rpm

Morse Taper: Three

Two Geared Ranges, Electronic Variable Speed,

Thermal Cutout, Slipping Clutch

Drill Capacity:

2 3/8"

1/2"
