

Make: Master

Model: BLP53M

Description: Space Blow Heater 123,000 Variable to 181,000 Btu

Space heater is a portable unit, that is powered by propane gas and requires a mains power supply. It produces direct fired heat and is fan assisted in order to heat small and large spaces quickly.

Specification

Gas Type :	Propane
Voltage :	Dual Voltage 110 & 240 Volt
Heating Power (Kw) :	36 Kw Variable To 53 Kw
Heating Power (Btu) :	123,000 Btu Variable To 181,000 Btu
Heating Power (Kcal) :	31,000 Kcal Variable To 45,100 Kcal
Fuel Consumption :	3.78 Kg Per Hour
Thermostat Control :	Manual
Air Displacement :	1,450 M3/h
Power :	110 Watts
Rated Current :	0.48 Amp
Gas Pressure (Bar) :	0.75 Bar To 1.5 Bar
Ignition :	Manual
Safety Gas Valve c/w Thermocouple :	Included
Hose Length :	1.5 Metres
Regulator c/w Safety Valve :	Included
Motor Thermal Protection :	Included
Overheat Thermostat Protection :	Included
Length :	60.5cm
Width :	27.6cm
Height :	44.4cm
Trolley Wheel Kit :	Not Available
Noise Level :	74 db(A)
Weight :	14kg
