

# **General information**

## **Moisture separator NPT & BSP**

## Introduction

This document is valid for Moisture separator BSP (Part No. 8900 0050 00) and Moisture separator NPT (Part No. 8900 0050 01). It contains technical data and information on how to avoid damaging threads when mounting the claw couplings.

## Information

- › Oil or Loctite is necessary to avoid thread damage.
- › Recommended torque is 50-60 lbf.ft (70-80 Nm) for the claw couplings.
- › Recommended claw couplings:

Part No.	Description	Recommended claw coupling	Quantity
8900 0050 00	European version, BSP	9000 0302 00	2
8900 0050 01	US version, NPT	9001 0005 02	2

## Technical data

Part No.	Description	Airflow	Hose connection	Weight
		ft <sup>3</sup> /min (l/s)	in. (mm)	lb (kg)
8900 0050 00	European version, BSP	130 (60)	¾" BSP (20)	1.3 (0.6)
8900 0050 01	US version, NPT	130 (60)	¾" NPT (20)	1.3 (0.6)
