

RGL1

SINGLE LEG WEBBING LANYARD & SHOCK ABSORBER RGL1

This single leg lanyard is produced using our anti-bacterial protection webbing.

An industry standard, and usually the minimum equipment issued/ required with a harness for anyone working at height.

This lanyard should be used when the operative is working from a static position, connected to a fixed anchor point.

The shock absorber pack will deploy in the event of a fall limiting the impact force on the user.
