

Make: Nemo

Model: Grabo Plus

Description: Grabo Plus Suction Vacuum Lifter battery operated

Ideal for Glass and Stone, the Grabo Vacuum Lifter main features are that it even works on wet, dusty or dirty glass, and on textured surfaces such as safety glass. Saving time having to clean/dry surfaces, whether on site or in factories.

Dimensions: 297mm x 181mm x 115mm Max lifting load: 170 kg

Grabo kit includes: 2 16.8 V Lion batteries (Rechargeable) and the kit comes with a charger. Each battery lasts for 1.5 hours, and only takes 2 hours to charge. So the tool can be used continuously.

What materials can be lifted with the Grabo?

- Stone
- Glass
- Textured Granite
 - Concrete
- Patterned Steel
 - Drywall
 - Tiles
 - Wood
- Tombstone
- Appliances
 - Door
- Car Windshield
- Furniture
- Manhole Cover
