

Make: TMC

Model: HT3000-1

Description: Transformer 5kva Continuous @ 3kva

Technical Data

This transformer ideally used for heating and lighting loads where a transformer is required to be used continuously for long periods of time.

DESCRIPTION:

Single phase step down portable transformer. Suitable to run a 3KW heater continuously.

INPUT:

230 Volts c/w 2m cable & 13A 2P+E plug

OUTPUT:

110V CTE (55-0-55V) c/w 1 off 32A 110V 2P+E IP44 IEC 309 socket outlet

RATING:

3KVA continuous

CIRCUIT PROTECTION:

Manually resettable thermal overload cut out switch

ENCLOSURE:

Sheet steel vented yellow case to IP21 c/w carry handle
